COLLEGE OF AGRICULTURE LEARNING COMMUNITIES
This is how we invest in your success.
FOOD FOR LIFE LEARNING COMMUNITY

The Food for Life Learning Community offers students the opportunity to learn about food, from the farm to the plate! The Learning Community provides an easy transition to Auburn University and exposes students to different resources and opportunities on campus related to food production and availability. Students in the Learning Community will be connected with faculty and administrators who will support and mentor them throughout their undergraduate career.

FALL
First Year Seminar

SUSTAINABLE AGRICULTURAL SYSTEMS LEARNING COMMUNITY

Students with majors in the College of Agriculture will have an easy transition to Auburn University through exposure to resources and opportunities available on campus and in the college. By meeting with faculty and administrators who will support them throughout their undergraduate careers, students will be mentored toward success in this Learning Community.
