Auburn University Facilities Management Policy on

FINAL PROJECT DESIGN APPROVAL ON BUILDING EXTERIORS

I. PURPOSE

Provides guidance regarding which directorate within Auburn University Facilities Management ("Facilities Management") has final design approval for all exterior projects, including building exteriors and landscapes, at Auburn University ("The University").

II. POLICY MANAGEMENT

**Responsible Office:** Auburn University Facilities Management

**Responsible Executive:** Assistant Vice President, Facilities Management

**Responsible Officer:** University Architect

III. APPLICABILITY

This policy applies to all projects that affect University exteriors, including but not limited to buildings, roads, grading, walks, lighting, signage, and landscape. Organizationally, it applies to the Office of the University Architect and the Design Services Directorate.

IV. DEFINITIONS

None.

V. BACKGROUND

Within Facilities Management, the University Architect has the responsibility for ensuring that all University projects comply with the architectural and landscape architectural design requirements set forth in the documents listed below. All University projects must conform to:

D. The guidelines to be completed as part of the *Campus Landscape Master Plan*.

E. The guidelines, standards, and requirements set out in the *Auburn University Design and Construction Standards*.

VI. POLICY

Within Facilities Management, the University Architect, in consultation with the Design Review Committee, will have final architectural and landscape architectural design approval on all projects involving construction, repair, modifications, and/or alterations of all exterior facilities.

REVISED: April 7, 2014
VII. EFFECTIVE DATE

7 April 2014
