Policy on Employment Start Dates

Responsible Office: Human Resources – Employment Services

I. POLICY STATEMENT
The policy on Employment Start Dates outlines the parameters for the standardization of employment start dates of new hire and transfer employees that are being hired for Administrative & Professional (A&P), University Staff (US), and Student positions (not to include those with graduate assistantships).

II. POLICY PRINCIPLES
The employment start date is the first date that work is performed. The standardization of employment start dates is important to establishing consistency and efficiency throughout the employment hiring process and maintaining compliance with federal regulations regarding work authorization and the Fair Labor Standards Act (FLSA).

When establishing an employment start date, hiring departments must do so with consideration to the following parameters:

1) All start dates occur no earlier than seven (7) days from the date of signed offer acceptance.
2) All start dates occur at the beginning of a work week or pay period, dependent upon the applicable hiring category.

See the below chart for the start date options per hiring category.

*TES employees are considered external applicants and must follow established recruitment and selection procedures to be hired into a position. As a result, TES employees hired into regular positions are considered new hires and not transfers.

Note: Consult with Employment Services to determine the appropriate start date for a semi-monthly transfer.
